EXPERIENCE

Discernica Systems Corp. | Web Designer
MAY 2019 - PRESENT

- Responsible for design, development and maintenance of websites
- Re-designed website user interfaces using UX/UI principles to improve the user experience and solve pain points
- Conducted user research to guide the design of low-fidelity and high-fidelity wireframes and prototypes
- Went through the iterative process of designing, prototyping, and testing until the desired product was created
- Developed websites using HTML5, CSS3, Bootstrap4, and Git

Larlyn Property Management LTD. | Receptionist
SUMMER 2017

- Booked reservations, organized invoices and payments, data entry, filing, and organizing courier services

PROJECTS

Ensemble | Passion Project
APRIL 2020

- Created a solution for musicians who have difficulty meeting others to collaborate with by designing a concept mobile app that matches musicans based on their preferences
- Determined user pain points and needs through interviewing musicians around my university
- Using the research data, I created personas and iterated designs from low fidelity wireframes to high fidelity prototypes and made changes based on user feedback
